## BIDS ARE ORDERED FOR THE IMPROVEMENT OF CITY PLANT

### Resolution Ordering New Machinery For Water and Light Plant is Passed

### Several Petitions Granted—City Council Transacts Other Important Business.

The city council at its meeting last night adopted a resolution providing for the enlargement and improvement of the water and light plant at an estimated cost of \$10,000. Considerable other business of importance was transacted.

All members attended the meeting and Mayor Cowing presided.

Edwin Farrer was granted permission to lay a new cement walk in front of his residence on East Ninth street, upon motion of Councilman Ball. A petition, signed by W. A. Caldwell, asking for a new cement walk at the side of his residence on East Ninth street was also granted.

The certificate of the total valuation of real and personal property in the city of Rushville, from County Auditor A. L. Winship, amounting to \$3,446,995 was read and upon motion of Councilman Ball was ordered spread of record. The certificate also gave the total number of polls in the city as 888.

E. B. Thomas, pres., A. R. Holden, sec'y., and W. M. McBride, treas., of the city school board, petitioned council for a street crossing across Jackson street on line with the sidewalk on the north side of Eighth street. Upon motion of Councilman Reynolds the petition was granted, and Street Commissioner Lakin was so notified.

The school board also petitioned for permission to construct a cement sidewalk at a grade to be established by the city engineer along Eighth street on the south side of the Jackson school and asking permission to construct a drain from the school building west in the alley between Eighth and Ninth streets, to Hodge's branch. The petition was granted upon motion of Councilman Frazee.

Upon motion of Councilman Frazee, Mrs. Ora Wilson was granted permission to construct a cement gutter along the south side of her property, corner Main and Ninth streets, east to the alley between Main and Perkins street.

City Civil Engineer A. L. Stewart made a verbal report in regard to street and alley crossings on Fourth street, between Perkins and Morgan streets and recommended that crossings be laid across the C. H. & D. tracks at the two alleys between these streets. The question was referred to the street and alley committee with power to act.

City Clerk Gregg was instructed to notify the C. H. & D. to put in suitable crossings at these alleys and a better crossing at Morgan street, and to instruct the L. E. & W. and Big Four roads to put in crossings on Eighth street.

The report of Oliver Ong, superintendent of the water and light plant for the month of August was submitted to council. The report was as follows:

Receipts.  
Light Rentals.....\$301.86  
Water Rentals.....260.32  
Total Receipts.....\$562.18

Disbursements.  
By bills allowed Aug. 7.....\$1167.77  
By bills allowed Aug. 21.....154.99  
Total expense.....\$1322.76

Excess of expense over receipts, \$760.58

The report was referred to the finance committee for auditing. Mr. Ong recommended that the reservoir at the water and light plant be cleaned out and some necessary repairs made. This was ordered done upon motion of Councilman Reynolds.

The C. H. & D. notified Council that it was having a gate and target crossing prepared for the installation at the intersection of its tracks with those of the Pennsylvania in this city, and asked more time in which to put it in. The company promised to have

the crossing in place within two weeks. The company was granted further time.

Upon motion of Councilman Young the claim of Jesse Smith for pay for the bridge at the foot of Main street, was allowed.

Upon motion of Councilman Ball the salary of William Pea, as policeman, was ordered increased to \$50 per month, beginning October 1st.

Upon motion of Councilman Frazee, the flagman's house on Fourth street was ordered moved from its present location to the east side of Perkins street, far enough east to be out of the way of the sidewalk.

The matter of opening an alley from Perkins street east to the Hinchman ground was referred to the street and alley committee.

The resolution providing for the improvement of the water and light plant was passed by a unanimous vote.

The resolution is as follows: "Be it resolved by the common council of the city of Rushville, Indiana, that for the maintenance and utility of said electric light and water plant of the said city, it is necessary to improve said plant with new and larger machinery of different kinds in order to give more power to run said plant in order to supply the citizens of said city with electric light and water for fire protection, it is hereby resolved that the clerk of said city be authorized to advertise for bids for not less than three weeks for the improvement of said plant, said successful contractor furnish and place in said plant and have the same ready for use and test the same after the same is in position, the following machinery and repairs contained in the attached schedule, which schedule is made a part of this resolution, and that the 16th day of October, 1906 at 7:30 p. m. be set for the opening and receiving said bids and that the council reserves the right to reject any and all bids for said improvement.

"Bids will be received on the following apparatus and equipment: One 255 H. P., 4 valve Corliss type engine, one 160 K. W. 3 phase revolving field alternator, direct connected 165 revolutions per minute 60 cycles, one 4 panel switch board, with all necessary instruments for commercial and series A. C. street lighting, 33 oil type transformers, capacity 6 to 75 K. W., 35 intergrading W. Att. Meters, capacity 5 to 75 amperes, 35 series A. C. enclosed street lamps and 24 100 V. multiple A. C. enclosed lamps, commercial use."

The resolution provides that parties installing apparatus to make all connections and operate same for ten days under such load as may be required or service demands.

Upon motion of Councilman Frazee, City Clerk Gregg was instructed to advertise for bids pursuant to the provisions of the resolution.

A resolution was introduced providing for the use of East Market street for a switch from the P. C. C. & St. L. tracks to the water and light plant, to unload coal for use at the plant. Upon motion of Councilman Frazee, the matter was referred to the water and light committee with power to act.

Upon motion of Councilman Ball, City Clerk Gregg was instructed to advertise for bids on furnishing coal to the water and light plant for one year, beginning December 1st, 1906, bids to be received October 16th, and the coal to be used being Kenowa mine run.

Upon motion of Councilman Kelley, council took immediate steps to purchase ground immediately west of the water and light plant to be used by the plant.

Upon motion of Councilman Frazee, City Attorney Young was instructed to bring condemnation proceedings against C. H. & D. railroad for a crossing across their tracks on Arthur street.

City Engineer Stewart called council's attention to the fact that there were a number of new houses in the city that had not been numbered. Upon motion of Councilman Frazee the houses were ordered numbered.

The plans and specifications prepared by Superintendent Ong for the installation of the new machinery at the water and light plant, were adopted on motion of Councilman Frazee.

The contract with J. H. Vance for the improvement of Fourth street, and Sexton street, was approved upon motion of Councilman Frazee.

The specifications for the improvements on Ninth and Tenth streets were adopted on motion of Councilman Frazee.

The usual claims were then allowed and after City Clerk Gregg had been instructed to purchase a car load of paving brick, council adjourned.

## WATSON MAKES A PREDICTION

### Says the United States Will Take Cuba Like the Philippines

[Special to the Daily Republican.]

Anderson, Ind., September 19th.—During his address at a Madison county Republican meeting at Alexandria, last evening, Congressman James E. Watson touched briefly but emphatically on conditions in Cuba at this time. After comparing the Philippines and Cuba, Mr. Watson said: "Mark my prediction, before the end of the Roosevelt administration the strong arm of the United States will reach out and take over Cuba, as we did the Philippines." Mr. Watson repeated his prediction and seemed so anxious to impress it upon the audience that many people concluded that "the whip of the House" may have been speaking by the card. He was heartily applauded.

## OBNOXIOUS POST CARDS HAVE BEEN WITHHELD

The local postoffice here has just sent 211 souvenir postal cards to the department at Washington having been withheld from the mails on account of personal reflections and obscenity—in fact some of them were very "rank." There is a heavy fine for sending cards of this nature through the mails and it is not known what action the postoffice department at Washington will take until the cards arrive there and have been investigated. Some of the cases may possibly be taken up by the authorities and the sender may have a serious time of it. Early this summer the Republican published a warning against sending objectionable "souvenir cards" through the mails, and possibly no reader of this paper are among the 211 offenders.

## A HOUSE TO HOUSE SUNDAY SCHOOL CANVASS

Thursday (tomorrow) afternoon the churches of Richmond will make a house to house canvass in the interest of the Sunday school and church. About 400 field workers have been selected and the canvass will be made from 2 to 6 o'clock p. m. Promptly at 2 o'clock the church bells of the city will ring for a period of five minutes, when the army of canvassers will begin their work in their assigned territory. The questions which will be asked will be as follows:

1. Name and residence.
2. Number in family.
3. Number attending Sunday school.
4. Number under 21 years of age.
5. Number of young men between 12 and 35 years of age.
6. Church membership or church preference. Or, those with no preference.
7. Those having church membership elsewhere.

This kind of a canvass is not a new thing for many cities have been similarly canvassed, and in a few hours over one million two hundred thousand people reached and many useful and valuable items of information were obtained. Iowa has even gone farther than this, and a few years ago made a house to house canvass which covered the entire State.

—Miss Georgianna Amos is the guest of Miss Grace Kenner.

## MAY LOCATE IN THIS CITY

### C. E. Francis & Bros. May Move Their Factory Here From Cincinnati

### Improvement Association Has Offered Them a Fac- tory Site

The Rushville Improvement Association is in correspondence with Charles E. Francis & Bro., proprietors of a factory, wherein are made wood-working machinery, veneer presses, glue heaters, glue spreaders, glue cookers, trucks and supplies and located at Cincinnati, with a view toward persuading them to locate in Rushville. "The company asks only a site for their building and will locate here provided the association will furnish one. Plans for a shop building, to fill the requirements of the company, have been sent to the association with the request that a local contractor figure on the cost of the building. The company has asked the association for a tracing of the lot at the juncture of the C. H. & D., Big Four and L. E. & W. tracks, and desires all information regarding the prospects for locating here so that it can decide within ten days whether or not it will locate here.

The specifications for the building, to be built by the company in case it locates here, require a concrete foundation and concrete floor in the basement. The walls are to be of brick and the building is to be among the largest factory buildings in the city.

"This concern is a thoroughly reliable one," said A. B. Flinn, secretary of the Improvement Association this morning. "It started in business about the same time that Walter M. Pearce, of this city, started his wood-working shop in the old Bowen building and it has grown until its factory at Cincinnati has become entirely too small for its needs.

"There is no doubt that it would be a good thing for our city and the association will make an effort to land it. Arrangements have practically been made, where-by the lot referred to by the company adjoining the C. H. & D., Big Four and L. E. & W. tracks can be purchased of Gates Sexton, the owner, provided that the factory comes here. We have offered them good inducements and I think the chances are very favorable toward their coming here.

"Rushville is in somewhat of a peculiar position today and we must make an effort to build up our industries. First the city lost the old Heading factory. That concern employed from twelve to fifteen men. It may not have amounted to as much as some factories, yet it was that much of a loss. Then the coiled hoop factory went away and later the Star Carriage company, the latter concern taking with it about forty men. All of these factories have moved away, and we had not felt the loss. Why? Because of the advent of the traction line. However, the traction line will be completed before many days, and then the bottom will drop out unless we make further provision for the growth and improvement of the city."

In regard to Miss Bernice Beeson's marriage, her mother writes that when her daughter became Mrs. Cochran, last Wednesday, she was the first of Temple Beeson's children or his children's children to change her name. His family consisted of five sons and one daughter, the latter never married, and to the sons who married only these two daughters were born. Their father, Leroy Beeson, lived on his farm in Rush county until his death four years ago. A year later the wife and daughters moved to Lincoln, with the thought that in the mild and equitable climate of Eastern Nebraska, they might find better health. They have become very much attached to their adopted home, and in the short time they have lived in Lincoln have seen vast and substantial improvements made, not only in the Capital city, but in the country adjoining. Soon after moving to Lincoln the daughters entered the Lincoln Business college, where they remained five months, fitting themselves for office work. Miss Bernice has worked with only two short vacations for more than two years and a half, resigning only ten days before her wedding day. Miss Bessie is doing stenographic work in a bank.

Ed. Riggs, our former townsman, is the busiest druggist in Lincoln. He is looking forward to a visit soon from Mr. and Mrs. Fon Riggs.

The committee, consisting of Rev. McConnell, Alfred Martin and Judge W. A. Cullen, chosen by the men of the Presbyterian church to draft a constitution for an organization of the Brotherhood in this city, will report at a meeting of the men of the church to be held tonight.

The Ladies Aid Society of the Main Street Christian church, at its meeting yesterday afternoon at the home of Mrs. W. M. McBride on West Third street, appointed committees to make the arrangements for serving the men's banquet during the fall week in October and for serving the annual Thanksgiving dinner.

## RATE OF TAX LEVY IS UNCHANGED

### City Council Adopts Ordinance Fixing the Rate for the Year 1906

By an ordinance fixing the rate of tax levy in the city of Rushville, for the year 1906, adopted by the city council last night, no change is made from the rate of 1905. The rate of levy is as follows:

For general fund, 60 cents; for water and light fund, 60 cents; on each poll, \$1; each male dog, \$1; each female dog, \$2; each additional dog, \$2.

## ORANGE BLOSSOMS IN NEBRASKA

### Wedding of Miss Bernice Beeson, Daughter of the Late Leroy Beeson, of this County

As announced a few days ago in the Republican, Miss Bernice Murray Beeson, daughter of Mrs. Addie M. Beeson, now of Lincoln, Nebraska, was married on September 12th, to Mr. William S. Cochran. The wedding was a quiet one, only immediate relatives of the contracting parties being present. The bride's gown was of soft pale blue silk, made princess, with yoke of heavy applique. She carried a shower bouquet of white roses, the groom's gift, tied with a large white chiffon bow. Her going away gown was of blue, chiffon broadcloth with the jacket lapels, collar and cuffs trimmed with white embroidered broadcloth. Long blue gloves and gray hat with long plumes of white and gray completed the costume. The house was tastefully decorated with palms, cut flowers and ferns, the color scheme being green and white. Mrs. Franklin P. Quick, a sister of the groom, and Miss Bessie Beeson, twin sister of the bride, assisted in serving refreshments. Mrs. Arthur McClain, of Emerson, Ia., was among the relatives present. Many beautiful and costly presents were received. The bride, one of Lincoln's loveliest young ladies, has endeared herself to many Lincoln friends during her three years' residence in the city. Mr. Cochran is a graduate of the high school and State University and is associated with his father, Thomas Cochran, in the grain business. They left on the evening train for St. Louis amid a storm of rice, old shoes and good wishes of interested friends. They will be at home after November 1st at 1127 South Twelfth street.

In regard to Miss Bernice Beeson's marriage, her mother writes that when her daughter became Mrs. Cochran, last Wednesday, she was the first of Temple Beeson's children or his children's children to change her name. His family consisted of five sons and one daughter, the latter never married, and to the sons who married only these two daughters were born. Their father, Leroy Beeson, lived on his farm in Rush county until his death four years ago. A year later the wife and daughters moved to Lincoln, with the thought that in the mild and equitable climate of Eastern Nebraska, they might find better health. They have become very much attached to their adopted home, and in the short time they have lived in Lincoln have seen vast and substantial improvements made, not only in the Capital city, but in the country adjoining. Soon after moving to Lincoln the daughters entered the Lincoln Business college, where they remained five months, fitting themselves for office work. Miss Bernice has worked with only two short vacations for more than two years and a half, resigning only ten days before her wedding day. Miss Bessie is doing stenographic work in a bank.

Ed. Riggs, our former townsman, is the busiest druggist in Lincoln. He is looking forward to a visit soon from Mr. and Mrs. Fon Riggs.

Pupils entitled to the special price on texts can secure them at the office of the County Superintendent, Saturday, September 23d, from 2 to 4 p. m.

The German texts will be sold at the County Superintendent's office.

Mr. M. R. McDaniel, the High School Principal, will be at Examination room in the court house, Saturday, from 2 to 4 p. m., at which time he will confer with students and parents about school work.

Yours truly,  
J. H. SCHOLL, Supt.

## RUSSIAN GENERAL IS ASSASINATED

### Gen. Nicolaieff Mistaken for Member of Field Court Martial

[Special to the Daily Republican.]

Warsaw, Russia Poland, September 19.—General Nicolaieff, of the artillery, has been assassinated here. He was erroneously thought to be a member of the field court-martial.

General Nicolaieff was walking on Wielka street, this morning, when he was surrounded by five revolutionists and shot dead. The murderers escaped.

## TOOK TO COCAINE FOR DRINK HABIT

### Drug Ruined the Life and Caused the Death of a Well Known Rushville Man

A sad and pathetic case is reported from Muncie—the death of Joe Wolfe, formerly of this city, son of Ann Wolfe who used to live on the Indianapolis pike.

Wolfe was at one time a blacksmith and took to drinking heavily. He was of a very quarrelsome nature when intoxicated and nearly murdered several people. Frightened at his condition he began looking for a cure for the liquor habit and finally met some one who started him to using cocaine and morphine, telling Wolfe that it was a sure cure for the liquor habit.

The drug habit took a firm hold on him and he was probably the heaviest user of cocaine in the State. He took as much as two drams a day. This is 160 grains and cost him over \$1.20. In addition to this immense amount of cocaine he used thirty grains of morphine daily.

June 13th he entered the sanitarium and was discharged June 25th. At the time of his discharge he was according to the statement of the sanitarium authorities, perfectly cured. He returned to the habit again, however, and his death last Saturday night was the consequence.

Wolfe was an exceptional case, and there were few men who could have taken as much cocaine as he without causing death. He was an habitual user of the drug for six years. Two years steady use is, normally, the time in which the drug causes a total wreck of the user. Wolfe was 38 years old, and was married to a daughter of Alex Palmer, who survives him.

The Muncie Star says that while no under the influence of the drug which killed him, Wolfe, or "Joe," as he was commonly known, was a good fellow. His demise caused a feeling of sorrow among a number of the up-town merchants whom he had often solaced for junk.

He was aware of his condition and used to deplore the fact when in a sober state, that he was addicted to the drug. He was always a man of good intentions, and whatever wrongs he committed were the faults of the drug and not the fault of any evil nature of his own. "Joe" was one of the characters of the town and he and his push cart will be missed considerably by the uptown residents with whom he was a great favorite, by his obliging and cheery ways.

## ARE WORKING IN A CANNING FACTORY

The canning factory at Greensburg has been short of help and the women of the W. C. T. U. in that city have gone to work there, peeling tomatoes and the money that they earn will go to the temperance cause.

A large crowd attended the basket dinner and Sunday school institute at Mt. Olivet last Sunday.

# Backache

Any person having backache, kidney pains or bladder trouble who will take two or three Pine-ules upon retiring at night shall be relieved before morning.

The medicinal virtues of the crude gums and resins obtained from the Native Pine have been recognized by the medical profession for centuries. In Pine-ules we offer all of the virtues of the Native Pine that are of value in relieving all

RUSHVILLE, IND., SEPT. 19, 1906

We are coming on. It is now reported that dancing is to be introduced in the public schools of Cleveland, Ohio and that F. W. Ehler, director of physical culture, who has the matter in charge, has engaged Miss Burdett, of New York, to teach the pupils "folk dances." Ehler's plan is to teach dancing after school hours, then if it proves successful he will incorporate it with the regular physical culture exercises.

The official returns from Maine show that the Republicans elect their entire State ticket, a large majority of the membership of the State legislature, insuring the re-election of Senator Hale, and the entire congressional delegation. The pluralities are the smallest recorded in the Pine Tree State in a number of years, but the fact that the Republicans succeeded in holding their own, even by reduced majorities, in the face of the opposition encountered, is evidence that Republicanism is not on the wane in this easternmost of the States.

The overshadowing issue in Maine this year was the question of re-submitting the prohibitory clause in the constitution. The Maine Democracy declared in favor of re-opening the question, opposition to prohibition having been accentuated by the enactment of a law last winter, known as the Sturgis-Cobb law, which ensured the enforcement of the prohibitory clause in the constitution. The liquor interests of the country, in so far as they were interested in the alcoholic traffic in Maine, came to the support of the Democratic candidate for governor.

Gov. Hanly, who closed the campaign in Maine, states that money was furnished and expended with a lavish hand in the effort to bring about the re-election of Governor Cobb. Congressman Watson, who participated in the Maine campaign, stated in an interview given soon after his return, that so bitter was the fight on local issues that no one could speak with certainty concerning the result. The Republican vote in Maine this year was about as large as that of two years ago; the Democratic vote was greatly increased. Despite the efforts put forth for the overthrow of the prohibitory clause, the Maine Republicans were successful all along the line, including Representative Littlefield who, having declared squarely for the maintenance of prohibition in the State, was the special object of attack by the liquor interests.

It is a fact worthy of note, that in this struggle for the maintenance of prohibition in Maine, the official organization of the so-called prohibition party was enlisted in the fight against Gov. Cobb, and proved to be a willing and useful ally of the liquor interests.

## CAMPAIGN GOSSIP

### The Vice-President Will Probably Make a Few Speeches in Indiana.

Indianapolis, Ind., September 19.—The part that Vice President Fairbanks will take in the Indiana campaign this year will probably be settled as soon as Chairman Goodrich returns from a tour of the First and Second districts, where he is conducting a school of education for the various county committees. The vice president's lieutenants announced recently that he would not make a political speech this year, but there has been lately a change of front on their part and they are now anxious to have him get into the running. They are still of the opinion that on account of his official position he should not be expected to take a very active part in politics, but they believe that he should make at least two speeches in this state. It is the understanding that the vice president is quite willing to abide by the decision of Chairman Goodrich in the matter. The latter is not expected to return to Indianapolis until the first of next week. No arrangements for the vice president's meetings can be made until then. His lieutenants are anxious to have him make a number of political speeches in other states. He will start on another Western tour the latter part of next week, and he will probably deliver four or five political speeches before he returns to Indiana.

The state railway commission will tomorrow attempt to determine whether or not a Monon railroad bridge across a small stream at Putnamville, Putnam county, is a man-killer. Many complaints have been filed by employees of the road and people residing in the neighborhood of Putnamville. The commission has a lot of gruesome evidence to support the complaints, but the members will visit the scene and make a personal investigation. Chairman Hunt of the commission said today that twenty-one men have been killed at the bridge within the last few years. The company has stood for several suits for damages because of the death or serious injury of its employees. The supreme court has denounced the bridge in unmeasured terms and has labeled it a death-trap, but it still exists. It is said to be a covered affair and so low that it takes off all employees who happen to be standing on top of the cars. The commission will probably summon the officials of the road before it within a few days and demand that a safe bridge be erected.

Governor Hanly is busy with his keynote speech to be delivered at Tipton next Monday night. He has two or three stenographers working on the manuscript. He is not intimating what he intends to say, but it is known that he intends to thoroughly discuss the state administration and to set forth his ideas for reform legislation. His speech will be long and will not touch on national issues, although he will discuss national questions later in the campaign.

The agents of the government census department who are taking the divorce statistics of Indiana have about completed their work here. Their report will show that 14,400 persons have been divorced by the Marion county courts within the last twenty years. Approximately 9,000 applications for divorce were filed since 1887 and about 80 per cent were granted.

### Perils of the Sea.

Charleston, S. C., Sept. 19.—The Clyde liner New York brought into port the mate and three seamen of the American bark R. D. Diller, Captain Sayres, lumber laden from Savannah to New York, wrecked off the Flying Pan shoals. The vessel turned turtle and went to pieces. The men were found clinging to the spars. The captain and six others of the crew were not found.

### Three Trainmen Killed.

Guthrie, Okla., Sept. 19.—A north-bound St. Louis & San Francisco freight train went through a bridge on the South Canadian river near Carlton, Okla. The engineer is dead and a brakeman is missing. The body of the fireman is pinned under the engine, which with four cars, is in the rapidly rising stream.

### Taken With the Goods.

Potoski, Mich., Sept. 19.—Leo Crown, Harry Williams and Harold Williams were arrested on a charge of counterfeiting. They are alleged to have made lead nickels with which to play slot machines, and a number of these coins are said to have been found in their possession.

### A Deadly Side Swipe.

Mitchell, Ind., Sept. 19.—A passenger train on the Baltimore & Ohio Southwestern from Cincinnati to St. Louis sidwiped an accommodation train at Huron, Ind., last evening. The engineer and fireman were killed in the cab and several passengers were injured.

### Charged With Peonage.

Knoxville, Tenn., Sept. 19.—Robert B. Oliver, a railroad contractor of this city, has been indicted by the federal grand jury in session here on the charge of peonage. The indictment contained twenty-five counts.

### Caught by Wash Train.

Delphi, Ind., Sept. 19.—Jesse Herman, sixty years old, was caught by the Washburn train at Rockfield and instantly killed. He leaves a wife and son.

# PLAN WON'T WORK THE RIGHT MAN

Mr. Bryan's Latest Economic Proposal Impossible.

## GREAT CONCENTRATION OF POWER

Would Accompany the Placing of Railroads, With Their Millions of Employees and Dependents, Under the Control of the National Government—Would Involve a Vast National Debt.

The storm of protest with which Mr. Bryan's proposal of government ownership of railroads has been received within his own party shows that the national Democracy has not yet exhausted the possibilities of unharmoniousness. Southern Democratic leaders, led by Senator Bailey of Texas, Senator Daniel of Virginia and Representative Livingston of Georgia, denounce Mr. Bryan's latest economic proposal as a revival of the old ideas from traditional Democratic principles. The St. Louis Club-Democrat outlines some of the practical objections to government ownership of railroads when it says:

When does William J. Bryan suppose the government can get the money to buy out the 228,000 miles of railway in the United States, with their property aggregating \$16,000,000,000? If Mr. Bryan has any clear idea what \$16,000,000,000 means? Evidently not. The entire bonded debt of the government at this time is a little less than \$300,000,000. To buy the railroads would require a sum of money more than seventeen times as great as the whole present interest-bearing debt of the country. Who would take the \$16,000,000,000 bonds? Huge Sacrifice Involved.

The discount which Mr. Bryan's party when Buchanan was president, was compelled to offer to takers of a few million bonds was trivial compared with that which would have to be given to takers of the bonds under the Bryanized railway scheme. Does the author of this fantastic idea reflect the howl that went through the country when that other president of Bryan's party, Grover Cleveland, increased the bonded debt in 1894-95 to the extent of \$242,000,000 to head off a drop of the finances to Bryanized fifty-cent dollars? That outcry was only a whisper to a hurricane compared with the outcry which Bryan's proposed debt accumulation scheme would cause.

Bryan talks about the abuses of the political machines of both parties. Does he know that the railroads have 1,500,000 employees, the voters among whom could be added to the force of retainers which would do the bidding of the administration at Washington? He mourns the dangers of the few tens of thousands of the few hundreds of thousands of dollars which are said to have been contributed by corporations to the campaign funds of the two parties. Is he aware that the railroads of the country have gross earnings exceeding \$1,000,000,000 a year, much of which would be at the command of party in power in the national government.

### Vast Patronage Involved.

The earnings of the roads in 1906 will be not far from four times as great as the aggregate income of the United States government. Does Bryan think it would improve politics to put this vast army of men and this enormous annual revenue in the control of a junta of politicians of either party? Bryanizing eloquently of the perils of centralization of power in the hands of the government at Washington, he proposes to increase this centralization by handing over the reins of the railroads to the hands of a few politicians of either party.

Somebody has told Bryan that the German government controls the railroads in its country. That informant, however, must have forgotten to tell him that Germany's railway mileage is only a little over a seventh of that of the United States. That informant must also have omitted to tell him that ownership in Germany, unlike that which Bryan proposes for the United States, is not subject to the sway of partisan politics and its employees and its revenues cannot be placed at the command of the party in power at the seat of government. Texas, Kansas and Illinois in 1906 have more miles of railway than are in the German empire. The United States has more miles of railway than all of Europe.

The American people have a high opinion of President Roosevelt, but they would not like to give him power over the employees, the revenues and the management of the 228,000 miles of railway here than William II. has over the 22,000 miles of road in his empire. I have never advocated anything that did not have opponents in some quarters. It is Mr. Bryan's answer to the protests against his government railway policy which has been ignoring it from leading Democrats all over the country. "Keep Bryan away from the South," is the burden of the appeals which are coming to Chairman Gages of the Democratic congressional campaign committee. Bryan's Madison Square garden speech has made the South the enemy's country to him in as emphatic a degree as the South was Douglas after Douglas lost the famous commonwealth of 1846 to President Buchanan and the South to slavery on the free people of Kansas.

## Gen. Funston to Have Charge in Cuba in Case of Intervention.

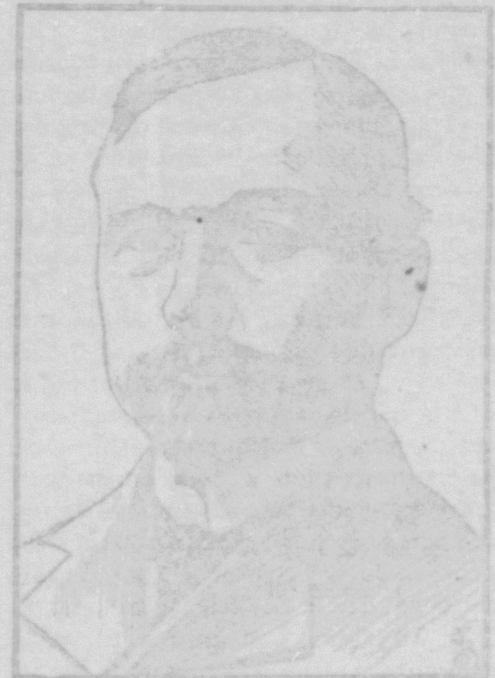

## HE KNOWS THE PLACE

No General Officer in the Army Is Better Equipped For This Task Than the Plucky Kansas Fighter.

The Army Is Well Prepared For Quick Action If Such a Step Be Found Necessary.

Havana, Sept. 19.—The United States cruiser Des Moines, with Secretary of War Taft and party on board, arrived here early this morning. The party landed immediately and went to Minister Morgan's house at Mariuano, where they will make their headquarters.

Washington, Sept. 19.—General Frederick Funston, who is now on his way to Washington under orders from the war department, will be assigned to command the army in Cuba in case intervention should be found necessary. While orders have not

GENERAL FUNSTON.

been issued for the movement of troops to Cuba, the army was never better prepared for quick action. If it is found necessary to send them to Cuba.

General Funston is probably as well informed regarding conditions in the island as any general officer in the army. He made a good reputation in the Philippines, and only a few months ago he attracted attention in the manner in which he handled the difficult situation arising out of the employment of troops in San Francisco. The fact that he is under orders to come to Washington and to await further instructions indicates that he is wanted for important duty.

### ALL IS QUIET

Pending Peace Conference the Island Takes a Breathing Spell.

Washington, Sept. 19.—A dispatch received by the navy department from Commander Colwell of the cruiser Denver at Havana stated that all was quiet there for the moment and that the insurgent leaders decided to meet and talk with Secretary Taft and Assistant Secretary Bacon. It is not known here what course Secretary Taft and Mr. Bacon will pursue on their arrival in Havana.

Commander Fullam of the gunboat Marietta called the navy department that the landing force seems to have overpowered the insurgents and that there is at present no indication of further destruction of property. Commander Fullam has charge of the bluejackets on the Marietta, 130 on the Des Moines and 100 marines. The first landing force consisted of bluejackets from the Marietta and it is supposed that his telegram relates to this force, as no mention is made of any troops from the Des Moines.

Information was received at the state department from N. K. Spellman of the Colonial Sugar company at New York that he had been advised of the destruction of the Esperanza sugar estate near Camaguey. The estate was burned by Colonel Calzada and a band of insurgents. It is not known whether Colonel Calzada was unaware of the reputation of hostilities or merely was acting as a rebel law. The Esperanza estate is not far from the Constante estate, which was reported to have been destroyed several days ago. The insurgents have been particularly active in the vicinity of Camaguey and are reported to have destroyed considerable property. Official advice concerning the burning of his plantations which have been reported from time to time, are lacking, however. All the ships of the navy destined for Cuba at present are on the sea, and it is expected they will constitute a sufficient force unless peace plans fail and intervention becomes necessary. It is understood that the navy will send a supply ship with food and a collier to Havana.

### AGREES TO ARMISTICE

Pino Guerra Accepts Proposition in Midst of Briak Battle.

Havana, Sept. 19.—Colonel Avila, with 200 mounted men, attacked a

rebel force under Pino Guerra near Los Palacios, in Pinar del Rio province. The rebels had one man killed and two wounded. The government soldiers had eighteen killed and thirty wounded. A second attack was about

GENERAL PINO GUERRA.

to begin when General Avila, in the capacity of a messenger, arrived from Havana and used an armistice, which was speedily arranged.

The official report of this engagement says a party of 100 government men came to Los Palacios and met the rebels with an offer of armistice before an answer could be given. The town was attacked. The enemy's headquarters were destroyed and the rebels' army was broken up. The rebels' army was broken up and the rebels' army was broken up. The rebels' army was broken up and the rebels' army was broken up.

### TO FINANCE REVOLUTION

Washington, September 19.—General Funston, commanding the naval forces in Cuba, has stated that the situation in the island has become very serious and that a revolution of some proportion is possible. The government has assembled 400 men at Mariuano, which together with the force already there, makes a total of 800 men. The government is well prepared to meet any emergency and there is a possibility of a large army.

### TO FINANCE REVOLUTION

Bogus Soldiers Were to Be Used to Overcome Castro.  
New York, Sept. 19.—The details of an attempt by Captain Boynton and Lewis N. Thompson to finance a Venezuelan revolution by the means of a bogus army, the standard of which of Venezuela, were disclosed in court when the two men were arraigned before United States Commissioner Hildreth on a charge of having made plans to counteract the policy. Capt. Boynton and Thompson were arrested several weeks ago together with members of the firm of Keller Brothers, dischargers of this city, who are alleged to have made the plan for the bogus army.

Robert Moore, United States agent, testified that he received an introduction to Boynton and Thompson as being willing to finance \$10,000 to promote the plan. He said that \$5,000 was to be used to buy a vessel to run to Venezuela from the West Indies and \$5,000 to buy the outfit of soldiers. The money was to be paid in the form of the United States loan, and the firm Moore testified was to be incorporated when a revolutionary party of which Capt. Boynton said he was the agent should secure control of the Venezuelan government. The plan was to make a joint with revolutionary soldiers and draw the government forces to the vicinity of the Arica mountains, and while they were almost overlooking the Venezuelan army, existing with the revolutionaries, were to seize the principal ports.

Foreed the Governor to Act.  
Tampora, Sept. 19.—Capt. Taft, with 250 men entered Casa Blanca, pillaged the French iron works and returned through Tampora, winding several of them. After returning the town for two days, Capt. Taft was induced by the governor to leave the governor having been reluctantly forced to let the rebels escape without further pursuit.

### TERSE TELEGRAMS

Fifty persons were drowned in the recent floods in the vicinity of Tampa, Fla.

The political situation in Spain is again critical, owing to discussions of the cabinet.

A prison passenger train was derailed near Clinton, Okla. Ten people were killed.

Emperor of the Orient that Emperor Nicholas will soon visit Germany are officially denied.

A terrible storm at Hong Kong destroyed innumerable native craft and caused much loss of life.

A strong market for cash wheat and a light movement of the crop in the Northwest caused a strong market in the Chicago exchange.

Charles H. Floyd of Manchester was nominated for governor by the Republicans of New Hampshire. Nine ballots were necessary before the choice was made.

# SCHOOL WEAR FOR THE BOYS

Should be a vital question just now. It might be a puzzling one, too, but Silberbergs are able to meet their every requirement with:

## STATE NEWS

Indianapolis, Sept. 19.—The voters of Indiana will be called on to vote for or against an amendment to the state constitution at the coming election, Nov. 6. It has been formally decided by the state board of election commissioners to submit to the people an amendment that has been pending for about four years.

The amendment provides that the "general assembly shall by law prescribe what qualifications shall be necessary to practice law in all courts of justice," and will be a substitute for Section 21 of Article 7 of the state constitution, which provides now, that "every person of good moral character, being a voter, shall be entitled to practice law in all courts of justice."

It is a long road to a constitutional amendment. In January, 1903, Representative Ralph Hamberger of this city introduced the above amendment as a joint resolution. It was properly referred and passed the house Feb. 12, was referred to the senate, where it passed, under a suspension of the rules, March 7.

The same joint resolution was passed by both branches of the last legislature, and the matter is now ready for submission to the voters of the state. The ballots will be arranged so that there will be two columns, one in favor of such amendment and the other against it, and the voter may take his choice. Though there seems to have been no "popular uprising" in favor of this amendment, it is supposed that there will be no great opposition to it. The lawyers have been interested in its success, for the most part, as they are the ones affected.

### COURT MAKES RECORD TIME

Man Convicted of Forgery Within an Hour After His Arrest.

Danville, Ind., Sept. 19.—The criminal court of Hendricks county has made a record for the rapid transaction of business. George Dempsey of Indianapolis was sentenced to serve from two to fourteen years in the Jeffersonville reformatory for forgery within an hour after he was arrested and in less than eight hours after he had committed the crime. An hour after he was sentenced Dempsey was on his way to prison.

Dempsey was employed by Ayres & Stone, building contractors, at Plainfield. He followed the paymaster of the firm into a bank at Danville, and was identified by the paymaster in order that he might have a check cashed. Dempsey appeared at the bank a short time afterward with a second check, a worthless one, on which he succeeded in getting \$150. Later he attempted to pass a second worthless check for \$79, but was unsuccessful. Detectives arrested Dempsey and brought him to Danville at noon. He was tried and sentenced at 1 o'clock, and at 2 o'clock was on his way to prison in the custody of Sheriff Mendenhall.

### Run Down by a Train.

Hammond, Ind., Sept. 19.—Charles Laager, section man, of St. Johns, was knocked off a handcar by a freight train on the Indiana Harbor line and instantly killed. A short time later an unknown man ran from the bushes near Gary and deliberately threw himself in front of a fast passenger train and was literally cut to pieces. There was nothing left of his body by which he could be identified. His clothing was of fine texture.

### Seventy-Fifth Annual Session.

Greensburg, Ind., Sept. 19.—The Indiana conference of the Methodist Episcopal church will hold in this city beginning Sept. 26, its seventy-fifth annual session since its organization. Bishop Daniel A. Goodsell will preside. The conference will continue until Monday or Tuesday, when announcement of the ministerial appointments for the ensuing year will be made.

### Surprised His Associates.

Fort Wayne, Ind., Sept. 19.—The arrest of Fred Boltz, saloon keeper, and a well-known Democratic politician, by government officials, accused of dealing in stolen postage stamps, came as a startling surprise to his friends and to party workers with whom he has long been associated. He represented the Ninth ward in the city council for a number of years.

Richmond, Ind., Sept. 19.—Companies G and H of the Fourth United States Infantry, enroute from Fort Benjamin Harrison, near Indianapolis, to Fort Wayne, Mich., were last night ordered to report to Fort Thomas, Ky., in anticipation of being sent to Cuba. The companies camped last night sixteen miles west of Richmond.

## BRIDGE GAVE WAY

**Terrible Accident on the Rock Island Road Near Dover, Okla.**

### A TRAIN IN THE RIVER

Driftwood Had Swerved Bridge Over a Swollen Stream Out of Line and Train Plunged In.

A Half Score Are Known to Be Dead. While Many Are Missing in Swirling Waters.

Guthrie, Okla., Sept. 19.—The Cimarron river has fallen five feet and the cars will be raised today. A negro porter is believed to have been drowned. All the passengers except one have been accounted for.

Guthrie, Okla., Sept. 19.—Eight people are dead, twenty more or less injured and as many more are missing as the result of the wrecking of a Rock Island passenger train three miles from Dover, Okla. The engine, tender, baggage and mail cars, smoker and day coach left the high bridge that spans the Cimarron river and plunged into the current, flanked by treacherous quicksands. The locomotive disappeared from sight almost immediately. The mail and baggage clerks escaped from their coaches and swam to the shore. The accident was due to the defective condition of the bridge, which was swayed out of line by the pressure of driftwood carried down by the swollen stream.

The train was an hour late and was running at high speed to make up time. The engine driver did not see the condition of the bridge until he was within a few yards, when it was too late to stop. He shouted to his fireman, threw on the air-brakes and jumped. He landed on the very verge of the river bank and escaped unhurt. The fireman was less fortunate and sustained severe injuries. When the engine struck the bridge the whole structure suddenly collapsed, precipitating the engine, smoker and day coach into the water. The two heavy Pullmans were not pulled in, but remained on the track.

The current whirled the day coach down-stream and lodged it against a sand-bank. The occupants were helped out through the doors and windows. The smoking car floated down-stream, submerged all but the very top. It stuck on a sand-bar in the middle of the river and four men were seen to clamber through the windows and pull themselves on top of the car, calling loudly for help, but those on shore were unable to reach them on account of the high water. While they were begging assistance a large mass of driftwood swept down and carried them from their fragile footing.

Three other men jumped through the rear door of the smoker before it sank and struck out for the shore. They were carried down the current for perhaps a quarter of a mile, when they were pulled out. They were all most exhausted from strangulation and exposure.

The most authentic accounts place the number of passengers in the smoker at between twenty-five and thirty. With few exceptions they have not been accounted for. The only hopeful news is contained in messages received from rural districts. Men on bits of driftwood have been seen going down-stream at various points, but attempts at rescue have in most instances proved futile.

One man whose name is not known, was fished out of the Cimarron at Cashion, twenty miles from the scene of the disaster. He was almost dead. Others have been reported floating down the river. It will be impossible to ascertain the exact number of dead for several days. Many of those reported missing may show up safe at some point down the Cimarron.

### POLAND CHINA PIGS.

I have a nice lot of pigs of either sex to sell. They are February and March farrow and are large, strong pigs.

The Republican office is the best equipped country printing office in the State and can compete with the large cities in both quality of work and prices.

## NEW YORK POLITICS

A Shaking Up All Along the Line in the Primaries.

New York, Sept. 19.—In a bitter clash of opposing factions in yesterday's primary elections in New York county, Congressman Herbert Parsons, president of the New York county committee, won a sweeping victory for the control of the Republican organization, while Leader Charles F. Murphy of Tammany Hall retained his position at the head of the organization by a narrow margin.

The Parsons victory in the Republican party was a complete rout for the faction led by State Chairman B. B. Odell, Jr., and Lemuel E. Quigg. Mr. Parsons had the backing of President Roosevelt and Governor Higgins. He telephoned the president at Oyster Bay last night, telling him of the victory and received Mr. Roosevelt's warmest congratulations. "This means," said Mr. Parsons, "that Mr. Odell will not succeed himself as state chairman."

In the Democratic battle Leader Murphy had the fight of his life. The friends of Mayor McClellan had banded together to wrest the control of Tammany from Murphy and were very nearly successful in doing so. While Mr. Murphy is accredited with a victory on the face of the returns, some of the leaders recorded as Murphy men are not pronounced in their affiliation and the test really comes in the county convention.

The success of Mr. Parsons means that the Republican state convention to be held at Saratoga Sept. 25 will be controlled by the friends of Governor Higgins. The effect of Leader Murphy's slight margin of victory at the Democratic primaries is somewhat problematical. Mr. Murphy has been regarded of late as friendly to the nomination of W. R. Hearst for governor. If he can control the Tammany convention he may obtain a unit rule and throw all the 105 Tammany votes to Mr. Hearst in the Buffalo convention next Tuesday. Mayor McClellan, who has been fighting Murphy for the Tammany control, has been outspoken as an advocate of the nomination of District Attorney William Travers Jerome for governor by the Democrats.

### MARKET REPORT

Bates, Mrs. Joe Spaulding, Mr. Fay Wyley, J. W. Word, Nate Bailey, James Campbell, Earl Crecraft, Wm. H. Morehead, Margaret Richardson, Ed. H. Byerly, A. Brown, Geo. Bundy.

## SHORTHAND & TYPEWRITING

### AN ENDORSEMENT.

The following is a letter from one of Miss Wisdom's pupils who is commanding a large salary as a stenographer. Miss Wisdom has recently organized a school of shorthand and typewriting in Rushville, 123 W. 3rd street: Editor Republican:

Hon. Sir:—I was a member of Miss Wisdom's class in shorthand and typewriting conducted in the city of Frankfort during April and a part of May. The class was a large one (twenty-seven) and its members made remarkable advancement under her splendid methods of instruction, ranging in speed from 100 to 150 words per minute.

At the end of the fifth week I could write at the rate of 100 words a minute and when the term closed two weeks later, I had acquired a speed of 150 words.

The day my term of lessons closed I reported at the Indiana State prison, at Michigan City, as official stenographer and have experienced no trouble whatever in doing the work.

I consider money spent for a term of lessons under Miss Wisdom is the best possible investment to the party who is willing to make an honest effort to succeed and I heartily commend her to your consideration.

Respectfully Yours,  
Walter M. Hockman.  
Indiana State Prison.

—County Superintendent Headlee visited the school in Walker township today.

—Mrs. John M. Stevens, of West Second street, and guest, Miss Elizabeth Michael, of Edgewater, Col., have gone to Louisville, Ky., for a visit with friends.

—Mrs. George Bonter and Mrs. William Bitner, of Frankfort, have been visiting Prof. David Graham. Douglas Thorpe, of Kansas City, came today for a visit with Prof. Graham.

—Mrs. Wilbur Holloway and children have returned home to Brownsburg after a visit with relatives and friends here.

Raymond Boring, of Anderson township is rapidly improving from typhoid fever.
